

I believe that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Enough is enough. When do we -- the consumer -- get protected from these harassing phone calls? We have protection now. We should have a say in whether we want these kinds of phone calls or not.
LEAVE IT ALONE!

The law that is in place now -- Indiana's Telephone Privacy law -- has definitely improved my time at home. No more calls after 9:00 p.m. or during dinner hour. It was to the point we would be forced out of our homes to go out to eat in order to avoid these calls. My husband and I get up in the morning at 4:30 a.m. -- we don't like phones AFTER 9:00 p.m. We would get them every night!! Actually, we would get an average of 6 - 10 calls per night!!! Yes, per night!!! NOT WEEK -- NOT MONTH -- BUT PER NIGHT!! Now the FCC is planning on changing that??? I don't think so!!! Too many people want it left the way it is -- "OUT OF THE PHONE LOOP" so to speak. I do not know of ONE PERSON who has a negative comment about this law EXCEPT the merchants making the calls and want to continue to do so!! DO NOT CAVE IN TO THEM!! We can now relax after a long day at work -- NO CALLS HAVE COME IN; WE ARE ELATED!!! DO NOT TAKE THAT AWAY FROM US!!!

Indiana has listened to its people...Indiana has put a law into effect that should remain in place -- that should be enough!!!
WE DON'T WANT THESE PHONE CALLS -- 1-800-NO-CALLS

Thank you!
